## Experience

---

### Pure Essence Technologies

June 2025 – Aug 2025

*Product Design Intern*

*Remote*

- Built a library of **80+ reusable Figma components** for an AI-powered learning app, reducing **design-to-handoff time** and ensuring **consistent interaction patterns** across all screens.
- Redesigned **answer validation** from a binary pass/fail into **step-by-step guided flows** with contextual feedback, improving **learning progression** for students preparing for competitive exams.
- Led **usability testing sessions** with 10+ students, identified **critical friction points** in solution clarity, and shipped interaction pattern updates that measurably **reduced repeated errors**.
- Partnered with **developers** in an agile startup environment to **prototype, test, and ship features** to a production-ready product.

## Projects

---

### Prompt Library, ChatGPT

December 2025

- **Designed** a native **prompt management system** within **ChatGPT**, enabling users to store, organize, and reuse prompts seamlessly as part of their workflow, shifting prompts from one-time inputs to **reusable assets**.
- **Established** a scalable **information architecture** by introducing **categories, tags, and usage-based sorting**, improving prompt discoverability while balancing flexibility with simplicity in organization.
- **Enhanced** workflows via **context-aware search** and **quick actions**, cutting retrieval time by **~40%** and boosting prompt reuse by **3x** based on user testing.

### Recommendation Based Hiring, LinkedIn

February 2026

- **Designed** a trust-driven **hiring feature** for **LinkedIn**, enabling founders to receive **structured candidate endorsements** through their network, improving signal quality over cold applications.
- **Mapped** and designed a **3-sided UX flow** across hiring leads, applicants, and recommenders, reducing coordination gaps and streamlining the end-to-end hiring journey.
- **Introduced context-rich recommendation cards** linked to candidate profiles, giving hiring leads a richer signal than cold applications and reducing time-to-decision.

## Education

---

### University of Mumbai

Oct. 2022 – May 2026

*Bachelor of Technology in Computer Engineering*

*Mumbai, Maharashtra*

## Skills

---

**Design:** User Experience Design, Interaction design, Product Thinking, User Research, Design Systems, Wireframes, Prototyping, Usability Testing

**Code:** HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Python

**Tools:** Figma, Sketch, Adobe XD, Webflow, Framer, Miro, Notion, Blender, Davinci Resolve, Adobe Lightroom, VS Code, GitHub

## Leadership / Extracurricular

---

### CSI

June 2024 – June 2025

*Head of Events*

- Organized and led 5+ design thinking workshops for 50+ students as Head of Events, increasing design community participation by **~30%** within the academic year.
